OBJECTIVE

Focused Information Technology major (4.0 GPA) currently attending DePaul University, with 8 months of work experience. Aiming to leverage a proven knowledge of application development, database design, and web design skills to successfully fill the Full Stack Developer role at your company. Frequently praised as detail-oriented by my peers, I can be relied upon to help your company achieve its goals.

EDUCATION

B.S. in Information Technology | DePaul University (4.0/4.0)

SPRING 2020

- **Minor:** Information Systems
- **Relevant courses:** Object-oriented Programming, Database Administration, Web Development, Enterprise Systems, Cybersecurity, Systems Administration

EXPERIENCE

Data Analyst | PressBox (Chicago, Illinois)

OCT 2018 – DEC 2018

- Utilized streak CRM for Gmail with complete fluency in order to organize information of over 50 clients per day
- Lead data collection for analysis and contributed to company strategy and vision
- Corrected any data entry error to prevent later issues such as duplication or data degradation

Inventory/Server | Pappy's Sweet Shop (West Lafayette, Indiana)

AUG 2017 – NOV 2017

- Created orders, documented special requirements and discussed needs with kitchen personnel to provide customers with desired food and minimize complaints
- Managed restaurant inventory and performed daily maintenance

SKILLS

- HTML5
- CSS3
- JavaScript
- WordPress
- Python
- Java
- SQL
- Project Mgmt.

PROJECTS (GITHUB)

Voice Assistant | Python, pip

- Personal voice assistant which uses voice recognition for commands to open a webpage, tell the weather, pull information from Wikipedia on any topic, send an email, etc.

Typing Master | HTML, CSS, JavaScript

- Typing game in which the user needs to enter a given word within 3 seconds. The user's points rack up with each correct word until a word is entered incorrectly.

911 Rescue System | Agile, SCRUM, Mendix

- Reengineered a 911 dispatch system in order to make it more responsive and efficient while providing real time information. Maintained a backlog, created use cases, and performed usability testing.
